Announcement Regarding a Stock Option Program
(Issuance of Stock Acquisition Rights to Directors and Executive Officers)

At a meeting of ORIX Corporation's Board of Directors held on May 9, 2008, a policy was decided to issue stock acquisition rights as part of a stock option program to directors and executive officers of the Company, in order to further increase incentives to raise corporate profits.

1. Overview of the Stock Option Program

Stock acquisition rights that can be exercised to acquire common shares of the Company will be offered in accordance with the provisions contained in Articles 236, 238, and 240 of the Company Law.

2. Recipients of the Stock Acquisition Rights

Directors and executive officers after the conclusion of the 45th Annual General Meeting of Shareholders of the Company, which is scheduled to be held on June 24, 2008.

3. Outline of the Stock Acquisition Rights

- (1) Type and number of shares to be issued upon exercise of the stock acquisition rights
10 common shares per one stock acquisition right.

In the case that a stock split (including gratis issue) or reverse stock split takes effect after the conclusion of the 45th Annual General Meeting of Shareholders of the Company, the number of shares for stock acquisition rights will be adjusted using the following calculation method. However, the adjustment will only be done for those stocks of stock acquisition rights that have not been exercised at the time of such stock split or stock merger. Furthermore, upon adjustment fractions of one stock will be rounded down.

Number of Stock After Adjustment=Number of Stock Prior to Adjustment X Ratio for Stock Split or Stock Merger

In addition, the number of shares for stock acquisition rights will be adjusted to a reasonable extent if there is a merger, spin-off, exchange of stock, stock transfer, or any other inevitable reasons after the closing of the 45th Annual General Meeting of Shareholders of the Company.

(2) Number of the stock acquisition rights to be issued

Maximum of 4,000. The maximum total stock to be issued or transferred upon exercise of the stock acquisition rights will be 40,000. However, this number to be issued or transferred upon exercise of the stock acquisition rights will be adjusted if there is any adjustment made in the number of shares, as a purpose of the stock acquisition rights, as per (1) above.

(3) Necessity of Payment for the Stock Acquisition Rights No payment is required for stock acquisition rights. This condition does not apply for an issuance under favorable terms.

(4) Amount to be Invested at Time of Exercising Stock Acquisition Rights and Calculation Method Used
Amount to be invested into the Company at time of exercising one unit of the stock acquisition rights

shall be the product of the amount to be paid in at the time of exercising stock acquisition rights per share to be determined by description below (hereinafter referred to as the "Exercise Price"), and the number of shares to be issued per unit of the stock acquisition rights set forth in (1) above.

The exercise price shall be the average closing price of common shares on the Tokyo Stock Exchange for the 30 trading days commencing 45 days previous to, and not including, the date on which the Company decides the exercise price (excluding days in which no shares are traded) and rounded upwards to the nearest yen.

However, if this average price is less than the closing price on the date on which the Company decides the exercise price, the closing price of such date, or, if there is no closing price on such date, the closing price of the closest preceding day, shall be used.

In addition, the exercise price of the stock acquisition rights will be adjusted to a reasonable extent if there is a stock split, reverse stock split or a merger, spin-off, exchange of stock, stock transfer, or any other inevitable reasons after the closing of the 45th Annual General Meeting of Shareholders of the Company.

(5) Exercise period of the stock acquisition rights

From two years following the day of the setting of the offering of conditions for issuing stock acquisition rights by our executive officer, delegated by the Board of Directors of the Company, to June 24, 2018.

(6) Conditions for exercising the stock acquisition rights

The conditions for exercising the stock acquisition rights shall be stipulated in a contract between ORIX Corporation and the recipients of the stock acquisition rights.

(7) Reason for Acquisition of the Stock Acquisition Rights

1. If a bill to approve a contract for the Company to become the non-surviving entity of a merger, a bill to approve a contract for the Company to become a divested company through a divestiture, or to approve a newly-created divestiture plan, or a bill to approve a contract for the Company to become a wholly-owned subsidiary due to a share-swap contract or to approve a share-transfer plan, has been approved by the General Meeting of Shareholders of the Company (a decision by the meeting of the Board of Directors of the Company, or by our executive officer delegated by the Board of Directors, if an approval by the General Meeting of Shareholders is not necessary) then the stock acquisition rights may be cancelled at no cost to the Company, by an executive officer delegated by the Board of Directors or by a decision made by the meeting of the Board of Directors, on a date to be determined.

2. If a holder with stock acquisition rights relinquishes a part of or entire stock acquisition rights, then the stock acquisition rights may be cancelled at no cost to the Company.

(8) Condition for transfer of the Stock Acquisition Rights

The transfer of stock acquisition rights is subject to the approval of ORIX's Board of Directors.

(9) Necessary Adjustments or Changes in Conditions for Exercising Stock Acquisition Rights and the Shortening of the Exercise Period for Stock Acquisition Rights in the Case of an Organizational Restructuring such as a Merger

In the event that the Company effects a merger, demerger, share-swap, share-transfer or other organizational restructuring as stipulated under the Company Law, or in the event of reform or abolition of related laws and ordinances, which becomes effective after the conclusion of the 45th Annual General Meeting of Shareholders, the decision by the meeting of the Board of Directors of the Company or our executive officer delegated by the Board of Directors, to the extent reasonable, will make necessary adjustments or changes in the conditions for exercising stock acquisition rights and the shortening of the exercise period for stock acquisition rights and has the ability to restrict the exercising of stock acquisition rights as stipulated in clauses (1) and (4),.

(10) Increased capital and capital reserves in case of issuing shares upon exercise of the stock acquisition rights

1. The amount of increased capital in issuing shares upon exercise of the stock acquisition rights is to be equal to one half of the limit amount of increased capital based on the calculation in accordance with Section 1 of Article 40 in Company Calculation Regulations (*kaisha keisan kisoku*). Fractions less than one yen will be rounded up.

2. The amount of increased capital reserves in issuing shares upon exercise of the stock acquisition rights is to be equal to the amount that will be reduced due to the increased capital amount as mentioned in 1. above, from the limit amount of increased capital also mentioned in 1. above.

Note: The above matters are subject to the approval of the Compensation Committee on “matters relating to the setting of compensation of individual directors and executive officers” that will take place after the 45th Annual General Meeting of Shareholders of the Company, which is scheduled to be held on June 24, 2008.
