ORIX Rentec to Begin Tablet PC Usage Service “TabRen”
—Specialist Department to Provide Total Support for Corporate Clients—

TOKYO, Japan — June 28, 2012 —ORIX Rentec Corporation (hereinafter, “ORIX Rentec”) announced today that it will begin offering a new service called TabRen (a combination of “tablet” and “rental”) for corporate customers involving the provision of total support for the use of tablet PCs in business. TabRen is a one-stop service that ranges from introduction to operation.

In addition to providing rentals of iPads and other tablet PCs, ORIX Rentec will offer a selection of mobile WiFi routers from multiple telecommunications operators depending on use, apps useful for presentations, meetings and other business settings, and tools for proprietary app development, among a host of other services. The one-stop service includes monthly communications charges. Corporate customers can use any number of tablet PCs for any duration required, with a minimum of 5 days, for a monthly charge of as little as ¥4,830*¹. This service will provide an easy way for customers to implement a trial use of tablet PCs.

Shipments of tablet PCs in Japan have continued to increase since 2010, and further market growth is expected to continue. Increased business demand for tablet PCs has grown in recent years, leading to projections that tablet PC shipments to corporations in fiscal 2014 will reach approximately 1.17 million units*².

ORIX Rentec began offering PC rental services in 1981, and owns approximately 300,000 PCs (as of March 31, 2012). In addition to offering hardware, ORIX Rentec provides life cycle management services where it is contracted for everything from initial setup to data deletion. In this way, ORIX Rentec has extended its range of services in response to the needs of corporate customers.

Leveraging its past track record and accumulated know-how, ORIX Rentec aims to continue providing services that match customers’ diversifying business needs.

*1 Tax-inclusive price per tablet PC where a customer signs a 2-year contract for 5 units (iPad2 + SoftBank006Z router + business apps)

*2 Data source: “*Tablet PC Usage Trends Survey Report 2012*,” Impress R&D

* A dedicated Web site (<http://orix.force.com/tabren/>; in Japanese only) will be available from July 2.

* iPad is a registered trademark of Apple Inc.
