

ORIX Rent-A-Car Introduces PayPay as New Payment Option

TOKYO, Japan – March 25, 2019 – ORIX Auto Corporation (“ORIX Auto”) announced today that from March 25, 2019, it will newly introduce the “PayPay” smartphone payment service provided by PayPay Corporation as payment method for customers to pay ORIX Rent-A-Car user fees.

PayPay is a payment service that uses a dedicated smartphone app to read QR codes or barcodes and enable payments to be completed in a simple manner. The service was launched in October 2018 and, in its first four months, amassed more than four million registered users.

PayPay will initially be introduced at a total of 43 ORIX Rent-A-Car stores in Hokkaido and Okinawa*.

Customers simply use their smartphones to read the special in-store QR codes to complete their payments.

ORIX Rent-A-Car allows customers to pay user fees through a variety of methods, including in store with cash, credit cards and e-money such as transportation system IC cards, and by net credit payments via its website. The addition of PayPay as a new payment option will enable ORIX Rent-A-Car to cater to the cashless and other diverse payment needs of its customers.

Going forward, ORIX Auto will continue to make effort to provide its customers with satisfactory services.

* Some stores in Hokkaido and remote Okinawa islands are excluded.
