Appendix(14) Reconciliation Table of Non-GAAP Financial Measurement

These materials include certain financial measures presented on a basis not in accordance with U.S. GAAP, or non-GAAP measures, including total assets and long-term liabilities excluding liabilities in line with securitized transactions (ABS, CMBS), as well as other measures or ratios calculated based thereon, presented on an adjusted basis, which excludes payables under securitized leases, loan receivables and investment in securities and reverses the cumulative effect on retained earnings of applying the accounting standards for the consolidation of VIEs, effective April 1, 2010.

Our management believes these non-GAAP financial measures may provide investors with additional meaningful comparisons between our financial condition as of September 30, 2015, as compared to prior periods. Effective April 1, 2010, we adopted ASU 2009-16 and ASU 2009-17, which changed the circumstances under which we are required to consolidate certain VIEs. Our adoption of these accounting standards caused a significant increase in our consolidated assets and liabilities and a decrease in our retained earnings without affecting the net cash flow and economic effects of our investments in such consolidated VIEs. Accordingly, our management believes that providing financial measures that exclude assets and liabilities attributable to consolidated VIEs as a supplement to financial information calculated in accordance with U.S. GAAP enhances the overall picture of our current financial position and enables investors to evaluate our historical financial and business trends without the large balance sheet fluctuation caused by our adoption of these accounting standards.

We provide these non-GAAP financial measures as supplemental information to our consolidated financial statements prepared in accordance with U.S. GAAP, and they should not be considered in isolation or as a substitute for the most directly comparable U.S. GAAP measures. Reconciliations of these non-GAAP financial measures to the most directly comparable financial measures presented in accordance with U.S. GAAP as reflected in our consolidated financial statements for the periods provided, are included in page 37.
