February 9, 2026

*In preparing its consolidated financial information, ORIX Corporation (the “Company”) and its subsidiaries have complied with generally accepted accounting principles in the United States of America.*

*This document may contain forward-looking statements about expected future events and financial results that involve risks and uncertainties. Such statements are based on the Company’s current expectations and are subject to uncertainties and risks that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause such a difference include, but are not limited to, those described under “Risk Factors” in the Company’s most recent annual report on Form 20-F filed with the U.S. Securities and Exchange Commission.*

*The Company believes that it may have been a “passive foreign investment company” for U.S. federal income tax purposes in the year to which these consolidated financial results relate by reason of the composition of its assets and the nature of its income. In addition, the Company may be a PFIC for the foreseeable future. Assuming that the Company is a PFIC, a U.S. holder of the shares or American depositary shares of the Company will be subject to special rules generally intended to eliminate any benefits from the deferral of U.S. federal income tax that a holder could derive from investing in a foreign corporation that does not distribute all of its earnings on a current basis. Investors should consult their tax advisors with respect to such rules, which are summarized in the Company’s annual report.*

## (7) Segment Information (Unaudited)

The Group CEO, as the Chief Operating Decision Maker (“CODM”), regularly assesses segment performance and allocates management resources by using the amount equivalent to income before income taxes attributable to ORIX Corporation Shareholders of each business segment.

An overview of the operations for each of the ten operating segments follows below.

Corporate Financial Services and Maintenance Leasing	: Finance and fee business; leasing and rental of automobiles, electronic measuring instruments and ICT-related equipment
Real Estate	: Real estate development, rental and management; facility operations; real estate asset management
PE Investment and Concession	: Private equity investment and concession
Environment and Energy	: Domestic and overseas renewable energy; electric power retailing; ESCO services; sales of solar panels; recycling and waste management
Insurance	: Life insurance
Banking and Credit	: Banking and consumer finance
Aircraft and Ships	: Aircraft investment and management; ship-related finance and investment, maritime asset management and ship brokerage
ORIX USA	: Finance, investment and asset management in the Americas
ORIX Europe	: Asset management of global equity and fixed income
Asia and Australia	: Finance and investment businesses in Asia and Australia

The accounting policies of the segments are almost the same as accounting policies for condensed consolidated financial statements except for the treatment of income tax expenses, net income attributable to noncontrolling interests, and net income attributable to redeemable noncontrolling interests. The chief operating decision maker evaluates segment performance based on the amount equivalent to income before income taxes attributable to ORIX Corporation shareholders. Therefore, net income attributable to noncontrolling interests, net income attributable to redeemable noncontrolling interests, and income tax expenses are not included in segment profit or loss. Most of selling, general and administrative expenses, including compensation costs that are directly related to the revenue generating activities of each segment and excluding the expenses that should be borne by ORIX Group as a whole, have been accumulated by and charged to each segment. Gains and losses that management does not consider for evaluating the performance of the segments, such as certain interest expenses and certain foreign exchange gains or losses (included in other (income) and expense) are excluded from the segment profits or losses, and are regarded as corporate items.

Assets attributed to each segment are total assets except for certain cash and head office assets.
