Disclaimer

These documents may contain forward-looking statements about expected future events and financial results that involve risks and uncertainties. Such statements are based on our current expectations and are subject to uncertainties and risks that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause such a difference include, but are not limited to, those described under "Risk Factors" in the Company's annual report on Form 20-F filed with the United States Securities and Exchange Commission and those described under "Business Risk" of the securities report (*Yukashoken houkokusho*) filed with the Director of the Kanto Local Finance Bureau and financial results filed to Tokyo Stock Exchange.

These materials contain non-GAAP financial measures, including adjusted long-term and interest-bearing debt, adjusted total assets and adjusted ORIX Corporation shareholders' equity, as well as other measures and ratios calculated on the basis thereof. These Non-GAAP financial measures should not be considered in isolation or as a substitute for the most directly comparable financial measures included in our consolidated financial statements presented in accordance with U.S. GAAP. Reconciliations of these Non-GAAP financial measures to the most directly comparable U.S. GAAP measures are included from pages 21 to 22 in these materials.

The Company believes that it will be considered a "passive foreign investment company" for United States Federal income tax purpose in the year to which these consolidated financial results relate and for the foreseeable future by reason of the composition of its assets and the nature of its income. A U.S. holder of the shares or ADSs of the Company is therefore subject to special rules generally intended to eliminate any benefits from the deferral of U.S. Federal income tax that a holder could derive from investing in a foreign corporation that does not distribute all of its earnings on a current basis. Investors should consult their tax advisors with respect to such rules, which are summarized in the Company's annual report.

Non-GAAP Financial Measures

These materials contain certain financial measures presented on a basis not in accordance with U.S. GAAP (commonly referred to as Non-GAAP financial measures), including long-term debt, ORIX Corporation shareholders' equity and total assets, as well as other measures or ratios calculated based on these measures, presented on an adjusted basis which excludes payables under securitized leases, loan receivables and other assets and reverses the cumulative effect on retained earnings of applying the accounting standards for the consolidation of VIEs, effective April 1, 2010.

Our management believes these Non-GAAP financial measures provide investors with additional meaningful comparisons between our financial condition as of March 31, 2016, as compared to prior periods. Effective April 1, 2010, we adopted ASU 2009-16 and ASU 2009-17, which changed the circumstances under which we are required to consolidate certain VIEs. Our adoption of these accounting standards caused a significant increase in our consolidated assets and liabilities and a decrease in our retained earnings without affecting the net cash flow and economic effects of our investments in such consolidated VIEs. Accordingly, our management believes that providing certain financial measures that exclude assets and liabilities attributable to consolidated VIEs as a supplement to financial information calculated in accordance with U.S. GAAP enhances the overall picture of our current financial position and enables investors to evaluate our historical financial and business trends without the large balance sheet fluctuation caused by our adoption of these accounting standards.

We provide these non-GAAP financial measures as supplemental information to our consolidated financial statements prepared in accordance with U.S. GAAP, and they should not be considered in isolation or as a substitute for the most directly comparable U.S. GAAP measures. Reconciliations of these non-GAAP financial measures to the most directly comparable financial measures presented in accordance with U.S. GAAP as reflected in our consolidated financial statements for the periods provided, are included from pages 21 to 22.
