Capital Allocation: ROA, ROE & ROTE

ROA by Segment (Financial subsidiaries, other segments)

- Insurance, Banking and Credit ROA over 1.0%, other segments' ROA at 3.0% level after adjusting for non-recourse loans (NRL)
- Basic strategy is to allocate capital to assets likely to generate higher returns, aim to achieve high capital efficiency and healthy capital base

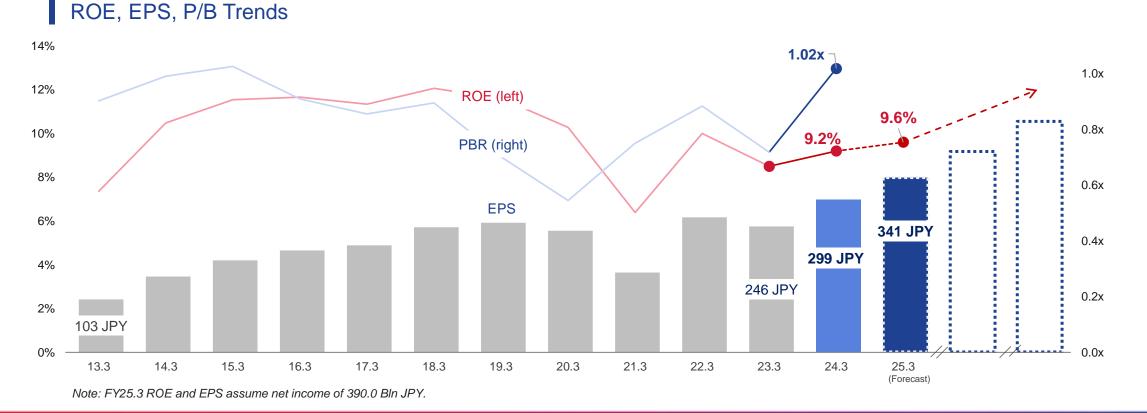

Ste: ROA for "Other segments, adjusted for NRL, others", "Insurance, Banking and Credit" are the return vs. segment assets. Meanwhile, "Total asset ROA" shows the return vs. total assets. (Total assets include cash and deposits, accounts receivable, and other assets not allocated to each business segment).

Intangible Assets Acquired in Business Combinations)

ROE, ROTE^{*}, and Shareholders' Equity

Improving Share Price Valuation (Corporate Value): After Reaching P/B 1.0x

- Position strengthening corporate value through profit-driven ROE improvement as core strategy, emphasis on EPS through ongoing share buybacks
- Promoting communication between top management (including outside directors) and investors, aim for further multiple expansion beyond P/B 1.0x
